# E.ON Inhouse Consulting

# Energize your future!

Do you strive for a career in consulting and want to make a real difference in the energy sector? Join **E.ON Inhouse Consulting**, the internal strategy consulting unit of the E.ON Group, and shape the energy world of tomorrow – today. Together with our strong team of around 100 consultants, you will be involved in all key projects and strategic challenges currently facing E.ON and the industry. Take on responsibility early on and explore broad career opportunities within an international team as

## Consultant (m/f/d) in Essen

### What you can expect:

- As a Consultant you kick off your career in consulting with your master's degree and independently work on E.ON's most relevant strategic topics
- You will take on responsibility for several project tasks and develop recommendations for action
- Discover a steep learning curve: Benefit from 6–9 training days per year and receive constructive feedback and coaching from a personal mentor

### Who we are looking for:

- You have completed a master's degree course in management, economics, engineering or natural sciences with remarkable results
- You enjoy working in interdisciplinary teams and have an entrepreneurial mindset
- You have an affinity for numbers and capacity for analytical thinking
- You want to make a difference by shaping the future of energy

### How to apply:

- Applications are possible throughout the year
- Upload your complete dossier addressed to Charlotte Schmitz via [www.eon.com/econ](http://www.eon.com/econ)
